KISHAN PATEL

BACKEND DEVELOPMENT & DATA - SEEKING A WORK-STUDY POSITION 2026-2027

Schedule: 2 days at work / 3 at school until March, then 3 days at work / 2 at school.

Drancy (93), France | Driving licence | kishan.patel21@outlook.fr | +33 7 61 90 02 91 | linkedin.com/in/kishan-patel21 | github.com/kishannnpatel | kishanpatel.fr

Third-year Bachelor's student in Computer Science (BUT Informatique, Data track, IUT de Montreuil), I build backend applications and end-to-end data systems, and I drive AI agents in a structured way (specs, tests, security).

SKILLS

Languages	Python, Java, JavaScript, TypeScript, PHP, SQL, Rust, C
Databases	PostgreSQL, MySQL, MongoDB; data modeling (ERD), querying, optimization
Backend & Web	Flask, PHP (MVC), REST APIs, Tauri, application security (CSRF, session management)
Data & BI	ETL, data cleaning and preparation, Qlik Sense
AI & Cloud	Generative AI agents (GenAI / Agentic AI), Prompt Engineering, Claude Code, Snowflake
Tools & methods	Git, GitHub Actions (CI), Linux, JUnit 5, design patterns (Factory, Singleton, Strategy)

PROFESSIONAL EXPERIENCE

Customer Experience Intern - Automation & AI Agents - Elementum — **Apr. - Jun. 2026**
- Built automations (variables, functions, conditions, loops, REST API calls) in a generative AI agent environment (GenAI / Agentic AI).
- Set up and configured AI agents and their tools to address real business use cases, on the Snowflake stack.
- Designed an unconventional testing method that made agent behavior more reliable in production.

Assistant Manager - Retail & Restaurant - J'adore Paris / NaanShaan — **Since 2021**
- Supervised daily operations of two businesses: inventory management, team coordination, customer relations.
- Independently handled administrative follow-up and performance tracking for both businesses alongside my studies.

Receptionist - Fasthotel Dijon — **Jun. - Jul. 2022**
- Welcomed guests and managed bookings independently, including during peak periods.

PERSONAL PROJECT

Organizer - AI-assisted desktop file organizer - Personal project — **2026**
- Built an app that analyzes and tidies folders (duplicates, sensitive documents, forgotten folders), with preview, trash and one-click undo.
- Developed with Claude Code by orchestrating AI agents (architect, developer, reviewer, security): plan, Gherkin specs, test-validated code.
- 191 automated tests, blocking Git hook, CI on macOS, Linux and Windows, dependency audit.
- Security and GDPR: protected system areas, prompt injection protection, local-only data, API key stored in macOS Keychain.

Stack - Rust, Tauri, TypeScript, Claude Code, GitHub Actions

ACADEMIC PROJECTS

Student association snack bar - full stack web app - IUT de Montreuil — **2024 - 2025**
- Designed and deployed a PHP MVC application backed by a MySQL database with 19 relational tables.
- Implemented 4 user roles with fine-grained access rights; secured the app (CSRF, sessions, payment codes).

Stack - PHP (MVC), MySQL, HTML/CSS, phpMyAdmin

Air quality analysis - Data warehouse & BI - IUT de Montreuil — **2025 - 2026**
- Designed an analytical database (star/snowflake schema) from 3 heterogeneous public sources (OpenAQ, urban data, economic indicators).
- Cleaned and prepared the data, optimized SQL queries and built interactive BI dashboards in Qlik Sense.

Stack - SQL, PostgreSQL, ETL, Qlik Sense

Multiple-choice quiz service — **2025 - 2026**
- CSV parsing to load and validate quizzes; JUnit 5 tests (nominal and error cases).

Stack - Java, Maven, JUnit 5

EDUCATION

Bachelor in Computer Science (BUT Informatique) - 3rd year, Data track - IUT de Montreuil - Université Paris 8 — **2023 - 2027**

French Technological Baccalaureate - Lycée Marcel Cachin, Saint-Ouen — **2020 - 2023**

LANGUAGES & SOFT SKILLS

Languages - French (fluent) · English (advanced) · Gujarati (advanced) · Hindi (advanced)

Soft skills - Autonomy · Rigor · Teamwork · Problem solving
