

KISHAN PATEL

BACKEND & DATA DEVELOPMENT - SEEKING APPRENTICESHIP 2026-2027

Apprenticeship schedule: 2 days/week until March, then 3 days/week.

Drancy (93) | Driving licence B | kishan.patel21@outlook.fr | +33 7 61 90 02 91 | linkedin.com/in/kishan-patel | github.com/kishannpatel | kishanpatel.fr

3rd-year BUT Computer Science student (AGED track, IUT de Montreuil), I design backend applications and end-to-end data systems: PHP/MySQL, Qlik Sense, AI agents.

SKILLS

Languages Python, Java, JavaScript, PHP, SQL, C

Databases PostgreSQL, MySQL, MongoDB; ER/logical modeling, querying, optimization

Backend & Web Flask, PHP (MVC), REST APIs, application security (CSRF, session management)

Data & BI ETL, data cleaning and preparation, Qlik Sense

AI & Cloud Generative AI agents (GenAI / Agentic AI), Prompt Engineering, Snowflake

Tools & Methods Git, Linux, JUnit 5, design patterns (Factory, Singleton, Strategy)

PROFESSIONAL EXPERIENCE

- **Customer Experience Intern - Automation & AI Agents** - Elementum Apr - Jun 2026
 - Built automations (variables, functions, conditions, loops, REST API calls) within a generative AI agents environment (GenAI / Agentic AI).
 - Configured AI agents and their tools to address real business use cases, on the Snowflake stack.
 - Developed an unconventional testing method that improved agent reliability in production.
- **Manager's Assistant - Retail & Restaurant** - J'adore Paris / NaanShaan Since 2021
 - Oversaw daily operations across two establishments: inventory management, team coordination, customer relations.
 - Independently handled administrative follow-up and performance tracking for both businesses alongside studies.
- **Receptionist** - Fasthotel Dijon Jun - Jul 2022
 - Welcomed guests and managed bookings independently, including during high-traffic periods.

ACADEMIC PROJECTS

- **Student Association Bar - Full-Stack Web Application** - IUT de Montreuil 2024 - 2025
 - Designed and deployed a PHP application in MVC architecture connected to a MySQL database with 19 relational tables.
 - Implemented 4 user roles (customer, bartender, manager, super admin) with fine-grained access control.
 - Secured the application: CSRF protection, session management, 6-character payment code generation.

Stack - PHP (MVC), MySQL, HTML/CSS, phpMyAdmin
- **Air Quality Analysis - Data Warehouse & BI** - IUT de Montreuil 2025 - 2026
 - Designed an analytical database (star/snowflake schema) from 3 heterogeneous public sources (OpenAQ, urban data, economic indicators).
 - Cleaned and prepared the data (missing values, outliers, normalization) and optimized associated SQL queries.
 - Built interactive BI dashboards in Qlik Sense to analyze pollution factors.

Stack - SQL, PostgreSQL, ETL, Qlik Sense
- **Multiple-Choice Quiz Service** 2025 - 2026
 - CSV parsing to load/validate quizzes; JUnit 5 tests (nominal and error cases).

Stack - Java, Maven, JUnit 5
- **Java Games (Zelda-like, P4, Battleship)** 2023 - 2024
 - 3 JavaFX applications with AI algorithms; MVC, Factory, Strategy design patterns.

Stack - Java, JavaFX

EDUCATION

BUT Computer Science - 3rd year, AGED track - IUT de Montreuil - Université Paris 8 2023 - 2027

Technology Baccalaureate - Lycée Marcel Cachin, Saint-Ouen 2020 - 2023

LANGUAGES & SOFT SKILLS

Languages - French (native) · English (advanced) · Gujarati (advanced) · Hindi (advanced)

Soft Skills - Autonomy · Rigor · Teamwork · Problem-solving
